ABOUT KONSOLL

Konsoll is a two day event held annually in Bergen, bringing together game developers from all over Norway and abroad to listen to world-class speakers. Started in 2012 by the Game Developers Guild in Norway, Konsoll consists of presentations, panels, workshops, and discussions. The conference also serves as a forum to strengthen the ties between Norwegian game developers, bring leading industry talent to Bergen to share their knowledge, while allowing the Norwegian studios to connect with the broader international industry.

Konsoll attracts more than 400 professional game developers and students from Norway and abroad who come to Bergen eager to hear the latest insights and experiences in the game development industry. In addition to our attendees, Konsoll 2019 had over 4000 international and Norwegian individuals watching our live-stream.

Unlike most developer conferences, Konsoll is non-profit, driven by volunteers dedicated to the growing game development environment in Norway.

Konsoll also strengthens the Norwegian industry by including local developers and studios in our line-ups; such as Bergen-based D-Pad Studio with its internationally critically acclaimed game Owlboy, and Funcom, creator of the renowned Conan Exiles.

We aim to make Konsoll as much an exciting, inspiring event for our speakers as our audience. As a result, they speak warmly about Bergen and Konsoll to their studios and contacts, building our reputation, garnering us more potential speakers, and building the reputation of games development in Norway.

Join us this year at our 10 year anniversary where we'll be celebrating with an extra special programme of speakers!

WHY KONSOLL?

- ✓ Konsoll is the largest game development conference in Norway, attracting more than 400 attendees in person from Norway and abroad, as well as over 4000 unique viewers to our live stream.
- ✓ The event has sold out in less than a month for the past two years.
- ✓ Our talk topics range from art and animation to programming and business development and are streamed free online. All talks are uploaded to our popular conference archive where they are available free to view.
- ✓ Join our loyal and dedicated community with a real passion in the field of game development. Experience the event that brings speakers and developers back year after year to share their knowledge and passion with the next generation of developers.
- ✓ Our atmosphere is relaxed and casual with access to speakers and plenty of opportunities for networking between attendees.
- ✓ Some of our past speakers include Tim Schafer from Double Fine Productions, Angie Smets from Guerrilla Games, Emil Pagliarulo from Bethesda Games, and Raph Koster from Playable Worlds.

EDUCATION

Konsoll collaborates with Bergen University College, the University of Bergen, Nordahl Grieg Higher Education, Kristiania College, Åsane Folkehøgskole, Noroff and others to provide exclusive offers for students including group ticketing options and additional, tailored lectures.

With the support of the Bergen Gamehouse, Konsoll is proud to run a one day pre-conference student event. Throughout the day, game development students from all over Norway visit and interact with games companies here in Bergen. This gives the students opportunities to briefly experience life in a game development environment, and network with people in their field. The day continues with open lectures delivered by respected industry veterans, and culminates with student game showcases.

KONSOLL CONNECT

This year Konsoll will continue its success from 2021 and include a business day in advance of Konsoll.

Focused on helping established developers network and grow, Konsoll Connect will be a full day event consisting of talks, panels, games pitching and networking. As well as important talks on all things business, Norwegian developers will have the opportunity to pitch their games to the audience, sharing the exciting games developed here in Norway with both local and international professionals.

VIDEO ARCHIVE

Since 2013, Konsoll has filmed all of its conference lectures. All of these films are posted in an archive on the conference website (www.konsoll.org), as well as being available on Konsoll's YouTube channel. To date, these videos have been viewed over 173,000 times, with an impressive total playing time of approximately 27,000 hours, and a wide-reaching two-thirds international audience.

QUOTES

"Konsoll is one of those special conferences where there is no barrier between speaker and attendee -- everyone is there to learn, meet new friends, and share in their mutual love for the game industry."

- Lee Petty, Double Fine Productions, 2018

"I really enjoyed the experience of participating at KONSOLL and getting to talk to so many talented people sharing the love of games. The wide variety of topics and speakers at the conference was really engaging and the production of the event is so well-done. I can't wait to attend again!"

- Scott Warner, Ubisoft Games San Francisco, 2019

"Konsoll and Konsoll Connect both channel a frankly unlikely amount of industry knowledge, talent, and business into the Norwegian city of Bergen, without ever losing the warmth and hospitality of a much more local & intimate conference."

- Rami Ismael, Freelance Industry Expert, 2021
